'The 40th Anniversary Reunion of the World's greatest Prog-Rock Band'

After 12 years apart, EMERSON, LAKE & PALMER (ELP) reformed to headline the HIGH VOLTAGE FESTIVAL in London. One of the original "supergroups", their music defined an era, beginning in the seventies. Their incredible 2010 reunion performance is now available for the first time on DVD and Blu-Ray... ..and what a show it is!!

EMERSON, LAKE & PALMER (ELP) reformed for the first time since 1998 for to headline the HIGH VOLTAGE FESTIVAL on Sunday, July 25th 2010. 2010/2011 marks the 40th anniversary of the creation of Emerson Lake and Palmer.

ELP was a predominant force that laid the foundation for all progressive rock. The band consists of Keith Emerson, the explosive keyboard who came from the Nice, the sultry vocals and extraordinary bass of Greg Lake from King Crimson and the theatrical and extraordinary drumming of Carl Palmer, who emerged from Atomic Rooster.

ELP became the first true prog-rock Super Group and sold nearly 50 million albums. The band went to number 1 in the charts with 'Fanfare For The Common Man' adapted from the 20th Century American classical Composer Aaron Copeland's theme. This unique re-

PRESS INFORMATION

"It was an amazing show. Part of me wants them to tour so I can see them again; another part doesn't so I can gloat."

"Thanks for uploading this precious and unique material, 500 characters in this box are not enough to describe, admire and appreciate this performance, living legends, masters of the stage, real professionals, a dream come true ..."

"Great show!!!! I wish they make a World tour once again for us !!!"

"Welcome back ELP."

"It was a great gig and I really, really, really hope they are here to stay (at least for a while). Great music, great band and High Voltage was, for me, a well organised and brilliant event. "

"The final band to perform was EMERSON LAKE PALMER. Reunited for the first show in 15 years, the three piece supergroup brought High Voltage to a close with a performance to remember. Many will consider ELP as a band for fellow musicians to enjoy, but as a non-musician myself, I'd say anyone can enjoy a band with such talent."

"ELP were the highlight, a brilliantly constructed show, excellent choice of songs. Stage pyrotechnics, knives in Keith's keyboards, revolving stage for drum solo, cannons - the whole works. Carl Palmer has lost none of skill, an absolute powerhouse, breathtaking to observe."
