Lucky Men: Emerson, Lake & Palmer Celebrate The 40th Anniversary Of Their First Three Studio Albums on InTheStudio.NET

Dallas, TX- July 28, 2012. North American syndicated Rock radio show *InTheStudio: The Stories Behind History's Greatest Rock Bands* mark the 40th anniversary of Emerson Lake & Palmer's *Trilogy* album with a look back at their first three studio efforts. ELP were a true supergroup in progressive rock, elevating the musical genre by taking it out of the science lab and onto FM rock radio, where ultimately millions of listeners would respond in favor. Greg Lake shares with show host Redbeard how 'Lucky Man' ended up making the cut on ELP's debut album.

"I wrote "Lucky Man" when I was 12 years old... And I never had any use for it... When it came to the album and we were due to finish the album there and then, it was just a case of, 'Does anybody got any ideas?' And there was a silence, and I said, Well, I got this. 'So, all right then, give it a go.' "

The *InTheStudio.NET/ Emerson Lake & Palmer MEDIUM RARE'* show is an online ONLY exclusive available now at:
